 Bartonator says:
 AGM bethels?
 Bartonator says:
 Arumus>
 Bartonator says:
 ?
]Don't panic{ says:
 field currently not suitable for more than 15 people. they are working on it this weekend so will see.
 Bartonator says:
 dariy flats as backup?
 Chibt says:
 Bethels that means getting bios
 Tank says:
 I am just told that ANZAC is also my girlfriend's mother's bday
 Chibt says:
 we can do 0.2 from Judy but ont 0.25
 Tank says:
 Put my name down for now and I will find out asap
 Bartonator says:

 Tank says:
 25th I am told
]Don't panic{ says:
<http://airsoftauckland.co.nz/smf/index.php?topic=2013.0>
 Bartonator says:
 28th March - H5 (Kham)
 4th April- The fort / Dairy flats
 11h April - Semi scenario (Andrew / Tank)
 18h April - AGM (BBQ lunch) plus Game
]Don't panic{ says:
 with a large group of inductees probably h2. note tony will be runing a game on that date also
 Bartonator says:
 what date the 18th?
 Chibt says:
 11th is casual if people want they might eb over done
 25 April - will have a theme can sort who actually runs it a bit later ill try for someone else to step up im not sure ill make it :9
 Tank says:
 We might be big enough soon to run two games on the same days
 Bartonator says:
 so we running a game every Sat of April?
 Chibt says:
 possibly probably not the 11th

Bartonator says:

which will be easter

Chibt says:

28th March - H5 (Kham)

4th April- The fort / Dairy flats

18h April - AGM (BBQ lunch) plus Game

25 April - Andrew to get someone to volunteer

Chibt says:

happy with that?

Bartonator says:

and the AGM is at Bethels / H2?

Chibt says:

go H2 its easer i guess no bios

Bartonator says:

ok... although seems H2 over dose at the moment

Chibt says:

its the only one there is april so should be ok

Bartonator says:

ok

Bartonator says:

done

]Don't panic{ says:

I don't have long tonight...

Bartonator says:

righ

Bartonator says:

topic

Bartonator says:

flatbush

]Don't panic{ says:

agree, no car, no use

Bartonator says:

I agree

Chibt says:

nolonger use unless we get our emergency car has my vote

Tank says:

I can't comment as I have never been to it

Bartonator says:

well you can

]Don't panic{ says:

imagin the drive in to h3.

Chibt says:

its a 20minute walk up/down the drive

Bartonator says:

basically the have to leave cars miles from the field

Bartonator says:

none to be on the field

Chibt says:

if someone hurts themselves we have no car and we need your vote for a quorm

Bartonator says:

if anything happens we have no fast way to get someone out

Tank says:

I know the background but it would not feel right to vote not actually having seen it but it is not a vote to keep using it

]Don't panic{ says:
do we need to vote? people have to go through us to organsie anyway
Tank says:
fair enough
Bartonator says:
indeed
Chibt says:
ok we will keep it as a field just not arrange anythign there
Bartonator says:
so basically no use till car issue sorted
Tank says:
sounds good
Chibt says:
just so people know i have some important stuff for any other business we need k for
Bartonator says:
next topic
Bartonator says:
AGM?
Chibt says:
AGM - we need to give 3 weeks notice of the meeting
Chibt says:
I have written up the letter just need to be approved and EMAILED out from the ASA admin email address
Chibt says:
also put up a thread which i will do as soon as the letter is finalised
Chibt says:
we need 30% of the club there or 30 people
Bartonator says:
then having no game on the 11th will help with the numbers
Tank says:
bat thinking
Chibt says:
bat thinking?
Tank says:
bat thinking quick man.... long story
Tank says:
when i say "long" I mean "boreing"
Bartonator says:
I think that was all listed in the topics to cove
Bartonator says:
I'm I missing anything?
Chibt says:
well we need to set a deadline for the email to be sent
Chibt says:
and we have to abide by it
Tank says:
sounds like the customs thing is all cool, not much happening on ASNZ front generally
Tank says:
which is nice. email for the AGM leter?
Chibt says:
the agm letter HAS to be emailed before Saturday
Tank says:
you said you have a draft now?
Chibt says:
yip its in sos
Bartonator says:
will review it later tonight
Bartonator says:

whos printing and sending?

Chibt says:

<http://airsoftauckland.co.nz/smf/index.php?topic=2029.0>

Chibt says:

EMAIL it

Chibt says:

its in the constitution we can

Chibt says:

I also need the original copy of the constitution or someone has to retype it !!

Bartonator says:

plus advertise in thread

Chibt says:

ill do the thread once the letter is agreed to

Bartonator says:

absolutely

Tank says:

looks good other than the confirmation of dates etc

]Don't panic{ says:

haveing a quick look for xonsitiution

Chibt says:

date is the 18th location is H2 we need a street address

Chibt says:

so if we are happy to do that in the thread by tomorrow we can move on to the ext topic

]Don't panic{ says:

<http://www.box.net/shared/nfbahlq1pz>

Bartonator says:

yeap. Done

Bartonator says:

next topic?

Chibt says:

is it any other business? i have a few things

Tank says:

fire them out then

Chibt says:

1) We need to modifit fps rules we have a bunch of gas m4s on their way I know of 8 that have been ordered

2) Nomad permissions and posting

3) telling our members about nomad

Chibt says:

start with 1)

I know of 8 we gbb m4's on there way we need to decide what we are going to do they are a sort of grey area at the moment

]Don't panic{ says:

is there a problem with current rules?

]Don't panic{ says:

450+ = sniper

Chibt says:

they can on a really hot day when a mag is left in the sun get to 500fps apparently but this is unusual

Tank says:

they shoudl be using appropriate gas for the ambient temperatures

Chibt says:

the problem is the veriation of a green gas primary

Chibt says:

are you going to measure the fps in the morning at lunch ect ect

Tank says:

we don't do it enough anyway

Chibt says:

the fps will change how are we going to react?

]Don't panic{ says:
if it changes that much they will be losing accuracy.

]Don't panic{ says:
I am inclined to scientifically test one when it comes.

]Don't panic{ says:
then based on that, maybe set a lower fps for them

Chibt says:

Personally I would say this

Allow them aware that the fps varies but say only 30rd mags can be used on them and an engagement distance of 20m because of the unknown fps

Tank says:

I say the upper limit is the same. if it is a hot day, they use a lesser gas. if it is found to be over on the day then it is banned

Tank says:

but I like the idea of more specific rules..... perhaps

Chibt says:

any mods done to the gun seen it banned if it changes the fps up

Tank says:

ponders

Bartonator says:

anyone know the fps on these?

Chibt says:

remember if you ban them and people have got them we are going to have serious serious issues enforcing it

Tank says:

it is certainly an unknown. I am in favour of a post to the community now that it is something new to us and for them to be aware that rules may be brought into effect to ensure the safety of our members

]Don't panic{ says:

if classed as snipers there is a lot of room from 400-550

Chibt says:

i know of 8 or 9 ordered between aidan c6 and bk

Bartonator says:

but then what's the point of having rules if people then knowingly break them

Chibt says:

that's my point and why i suggest we class them differently to battery assault with a larger minimum engagement distance and a no mods policy

Chibt says:

say these to verify there is no way to get an accurate fps measurement so a high minimum engagement

Tank says:

are these FPS levels reached with propane/green gas?

]Don't panic{ says:

the mods policy would be tricky to enforce

Bartonator says:

other than doing fps test at games

Chibt says:

yes it is with propane and say make them use a different gas but people won't

Chibt says:

alternatively we can just class them as snipers

Tank says:

I think we need to get more visible with the chrono whatever we do.

]Don't panic{ says:

if they have the potential to go above 450 then yes. but they can be converted to cqb level with a bolt change.

Bartonator says:

I have to say I am a little concerned about reading the NOMAD section and discussion of fps

Tank says:

me too

Bartonator says:

seems they want it extended

Bartonator says:

if they do it there then this will likely be imposed on ASA general

Chibt says:

no he is extending it to accomodate gas guns

Chibt says:

the whole of c6 and a few others are going gas m4s that is why he is extending it and im straing up against it

]Don't panic{ says:

have not read so no comment.

Tank says:

a way of dividing and conquering which i feared might occur

Bartonator says:

so whats the fps on these

Chibt says:

yip and thats why im rising it here we need to know how we are going to act

Chibt says:

leave it a month and it will be too late unfortunatly the horse will have bolted

Tank says:

even if it is Dan's league and they want to use higher limit guns, I say he does not get to voeride ASA mandate on who gets to use the high limit guns

Chibt says:

i cant find a place that says what the fps is ... i find a low of 350 a high of 500fps

Tank says:

ASA safely rules must be the minimum standard to have our name attached

Chibt says:

absolutly if we cant come to an agreement on this we need to stop nomad if they operate outside our fps limits i wont support it

]Don't panic{ says:

for accurancy and consistent performance I don't think they will tune more than 480

Bartonator says:

so why are they all gettibg the gas guns?

]Don't panic{ says:

recoil, noise more relism.

]Don't panic{ says:

but long term realiability.

Tank says:

who sees this fragmenting the club when they say screw you and invite all the teams to play outside ASA?

]Don't panic{ says:

may be as bad as ram or worse.

Chibt says:

i dont like this at all TBH

Tank says:

whatever the future, I can not give in ot pressure even if teams leave. safety first to the community at large

Bartonator says:

After reading the posts and seeing town of wnes comments... I;m starting to have a bad feeling about this too

Tank says:

quiet talks may need to be conducted with team leaders to see if they are on message or if they bolt for "greener pastures" shoudl the offer come'

]Don't panic{ says:

fyi, dan has told me D does have a organisational skills to pull it off without help.

]Don't panic{ says:

getting people together is one thing, running a good game is another

Chibt says:

iDamian has also told me dan is pissing him off ...

Tank says:

it does not take much to run a league like this, it only needs interest

]Don't panic{ says:

dan being dan I guess.

Chibt says:

the point is we make our rules if they cross us we deal to them

]Don't panic{ says:

aramus will keep his lot with us.

]Don't panic{ says:

he vaules safety

Chibt says:

dont get held up in dans crap he is a manipulative fuckhead

Bartonator says:

so back to the gas guns... really all we can do is look into this further when we have one n the hand and do some testing

Chibt says:

decide how we think we should treat them

Tank says:

C6 has its idea and no need to cater to ASA wishes if it comes in conflict. this team system gives them access to a large pool of developing players

Chibt says:

i would still like to thik we hold more patronage

Tank says:

certainly I think we should post up our concerns with the technology and to expect legislation governing their use

Chibt says:

but it is important we make our stand early let this run for 6 weeks then say we dont like ur gas guns and we are fucked

]Don't panic{ says:

aramus is 30+ % of noman I would think so we should be covered

Tank says:

and that such rules may well be subject to change as we get experience with the gas SEGs

Bartonator says:

so the concensus

Bartonator says:

????

Tank says:

it is up to them to make sure they have low powered gas for use on hot days

Tank says:

*?

]Don't panic{ says:

I really need one to test

Chibt says:

so we are saying we will not move our fps rules?

Tank says:

we are shooting blind

Bartonator says:

really seems a bit grey in the fps

Chibt says:

we will not make any allowances for gas m4's get the low powered japanese version

Tank says:

I am in favour of not budging our FPS

Bartonator says:

how can they be changed it we dont know the fps of the gun

Bartonator says:

likewise with Tank on this ine

Bartonator says:

one*

Chibt says:

well if we dont decide now then we have made our decision in in action these things are already ordered

]Don't panic{ says:

just got call from aiden, his is in customs, so may know very soon.

Bartonator says:

So.... could we arrange some tests with his asap

]Don't panic{ says:

yup.

Chibt says:

dans does 500fps on a hot day i dont know how much modding there is to it

Chibt says:

how soon is soon by the end of the weekend?

]Don't panic{ says:

imo, no need to move fps at moment, if in sniper fps range then classed as sniper.

Bartonator says:

people are seriously going to get njured

Bartonator says:

injured

Chibt says:

so aidan has to put a full scope on his?

]Don't panic{ says:

dan's is a v1, they are getting v3's.

Tank says:

what is the difference?

]Don't panic{ says:

mods required to get up to field standard already done.

]Don't panic{ says:

as far as fps, not sure.

]Don't panic{ says:

note we are colder than most usa sites, so should be generally less than reviews

Bartonator says:

I would say do testing asap, get back to us and then we can re adress this topic

Tank says:

I would personally like to let the club know that using this type of gun means you use it with respect and care and that if you hurt people and claim ignorance, I will rip them a new arsehole

Tank says:

....what Mark said

Bartonator says:

being an M4 and quite small, people are going to forget

Bartonator says:

engagement distances etc

Bartonator says:

anyhow.....

Chibt says:

Make a post today saying dont buy and expect to use the non japanese version just yet?

Chibt says:

there is a japanese version i have found which does 350 fps

Chibt says:

<http://www.redwolfairsoft.com/redwolf/airsoft/ProductDetail?prodID=25923>

Tank says:

Don't rush out and get one just yet. we are testing and for now FPS rules remain unchanged>

Tank says:

*?

]Don't panic{ says:

just post to be mindful they may be classed as snipers.

]Don't panic{ says:

same as tank

Chibt says:

shall we post that now? sticky it all over the place

Tank says:
post it as an announcement

Tank says:
so it goes to all boards

Bartonator says:
type draft in sos, refine and then post in the next 2 days

]Don't panic{ says:
just one in public will be fine

Chibt says:
seriously this is urgent we need it done tonight

Chibt says:
8 people are wanting to order them may already have

Bartonator says:
will 1 day make a difference. This is the first mention of these gas guns to me

Tank says:
we can put something up tonight and say this will be refined in the next few days

Chibt says:
leave it 2 days and we have a greater issue people are spending now while the \$\$ is high

Chibt says:
its not the first mention i have heard alot of talk on msn and at games

Chibt says:
i will have a draft done by 9 can people come back then to check it?

Tank says:
yeah

Bartonator says:
draft / refine and post by 11

]Don't panic{ says:
I have ignored them due to the fact they are not really field practical and don't see much life in them beyond novelty.

Bartonator says:
done

Chibt says:
ok so next item

Chibt says:
nomad forums

Bartonator says:
2) NOMAD permission

Bartonator says:
BTW every one ok with me getting Admin status

Bartonator says:
status

Chibt says:
if you are going to be reading shit change your profile to hide your status so people CAN NOT see and dont go posting it is pissing them off

Chibt says:
i currently am the templar team leader get me to post all your concerns inputs ill do it unmodded ect

]Don't panic{ says:
mark ok as admin.

Chibt says:
just dont make them start a new forum where they take out people and we lose control

Chibt says:
fine with mark as admin

Tank says:
I thought he was once upon a time. I am cool with it

Bartonator says:
was, then become global mod, which allows me to see a few things and mod peoples post, but unable to lock, close / remove threads

Chibt says:

yip mark thats cool will do it right now

Chibt says:
oliver im also hiding your status

Tank says:
why?

Bartonator says:
thank you and happy if status hidden

Tank says:
I don't do that

Chibt says:
then you can read at free will and they never know

Bartonator says:
nice

Chibt says:
we all need to know what is happening in Nomad its a huge risk you should be readig it

Bartonator says:
indeed

Tank says:
he has made his position clear and it was only because i was posting to assist int he setup. he has a problem with me posting, fine

]Don't panic{ says:
,pre iof you accidently click on the wrong section they may get shitty

Bartonator says:
so Delts Admin status

Chibt says:
lets just be clever about it our interference is pissing them off so lets be a little more subtle but dont even think about letting off

Tank says:
lets also not forget that we can pull the plug if they take the piss

Bartonator says:
simply just dont post in the nomad section untill we are accepted as a team and Oliver as TI

]Don't panic{ says:
d admin, I say no.
if we are qucik on his requests to add members to nomad

Tank says:
I agree with Kham

Bartonator says:
Agreed, no on the admin frint

Bartonator says:
front*

Bartonator says:
basically it becomes a totally separte forum

Chibt says:
no to admin im geting everything done within 6 hours atm

Tank says:
but to act quick to requests to reduce the desire to move to another forum

Tank says:
ok

]Don't panic{ says:
if anything more admins = more potential for mistakes.

Bartonator says:
plus we would have to clean up the sos area etc

Tank says:
speaking of which... we shoudl be having more of them in the committee board

Tank says:
I don't think they all need to be hidden and there is a bit of a lack of committee threads going up

Chibt says:
thats true

Chibt says:

we can shift a few into there

]Don't panic{ says:

hacing a quick look.

Tank says:

or just start new ones so as not to let everyone know that there is a hidden section we have been storing these

Chibt says:

lastly for tonight who can draft te thread to check we are happy with no teams other than nomad teams?

Bartonator says:

although are not admin all seeing

]Don't panic{ says:

Game reports potentially but then we name anmes.

Tank says:

I am ok with drafting something tomorrow?

Bartonator says:

cool

]Don't panic{ says:

ok.

Bartonator says:

So for the AGM whos standing for committy

Chibt says:

i will be

Tank says:

...fine, I'll do it

Bartonator says:

me too

]Don't panic{ says:

This gringo

Bartonator says:

lol

Bartonator says:

James / Tex probably out

Bartonator says:

Sam?

Tank says:

I think we will be two short

Chibt says:

gas m4s draft is up

]Don't panic{ says:

aramus/dan? raymon/rvp is also very enthusatic and has lots of time.

Bartonator says:

I would be very keen to get Aramus on broad

]Don't panic{ says:

with sam's lack of time, does he still want to

Bartonator says:

happy if sam goes

]Don't panic{ says:

?

Chibt says:

not sure he has time at the moment but will raise it with him

Chibt says:

how about aidan?

Chibt says:

aidan_mc shows up alot a nice guy ...

]Don't panic{ says:

he's more into shooty

Bartonator says:

anyone else

Bartonator says:

few month ago idea of Nick from C6

Chibt says:

anyone we dont have to nanny on

Bartonator says:

delta?

Chibt says:

make them choose to join themselves dont pressure them and dont hold there hand in the past that has got us crap all help once they join the committee

Tank says:

agree. lets put it up that we are accepting nominations

]Don't panic{ says:

d, no prob if he wants to. agree with andrew

Chibt says:

delta kows what the deal is leave it to him to decide to join or not the same with dan and aidan tell them the process let me make all moves

Bartonator says:

ok

Bartonator says:

what system will we have in place for NOmad to report to asa

Tank says:

report?

Chibt says:

shall we ask Delta to prehaps nominate a committee member to keep an eye on it and discussthings with him (not post and invade his space but be able to talk to him on behalf of the committee)?

Bartonator says:

Souds good and what I was meaning

Bartonator says:

just so that we know whats happening since it is meant to be done under the asa banner

Tank says:

why have all this secrecy and reporting through liasons?

Tank says:

we put our name to it so why must we tip toe about something that does not have to be secret?

Chibt says:

damian wants a degree of independence which i can understand

Chibt says:

you are still reading it its just talking to him rather than making public posts

Tank says:

he is running the show and I am cool with the no posts (admin or not) but for the committee to not have access to this area.....

Tank says:

can we no be trusted in the running of the club?

Chibt says:

i would have hoped we can

Tank says:

perhaps we just all need to reassure him that it is his effort and that will be respected

Chibt says:

so just chat to him see where he is at and report back in sos ...

Chibt says:

ill also remind him he was invite to join the committee but we shall not mention it again it is entirely up to him?

Tank says:

pride, the single greatest hurdle to inner fulfilment

Tank says:

sure

Tank says:
on both points

Tank says:
.....no lets make it a committee only section in the nomad board

Tank says:
neater and we can control permissions better perhaps?

Chibt says:
yeah could do ill talk to him see what he says?

Tank says:
sure

Chibt says:
updated my m4 thread btw with your susgestions oliver

Bartonator says:
will look at that now

Tank says:
I am happy with that

Chibt says:
right is that the meeting over?

Bartonator says:
post looks fine

]Don't panic{ says:
3) telling our members about nomad

]Don't panic{ says:

Bartonator says:
Last... how have the games over the past months gone

Chibt says:
ok so shall i post it or someone else

Bartonator says:
to me it seems games have been pretty poor

Chibt says:
games recently were good

]Don't panic{ says:
nomad, the draft? I can't.

Chibt says:
we are struggling with a lack of people there to help

Tank says:
you are cool to post it, Andrew

Chibt says:
we are all supper busy and noone is stepping up but sod them

]Don't panic{ says:
got to go if you don;t need me,.

Tank says:
I will draft the NOMAD announcement and get your approval tomorrow lunch/ morning

Bartonator says:
that's what I was getting at wrt poor games, that not a lots been orgnaised, some that are sort of fall through and recently it seems we have been relying on tonys games

]Don't panic{ says:
I have nit sent any first timers to tony's.

]Don't panic{ says:
they have at least beent o one of ours to induct.

]Don't panic{ says:
I wouldn't call it rely. we don;t want to run a game every time he does, not very neighbourly

]Don't panic{ says:
ok gotta go. nite

Bartonator says:
I'm not sure if I'm communicating this very well. Its more that we have organised and good games keeping players interested. Otherwise their attention will be diverted elsewhere

]Don't panic{ has left the conversation.

Tank says:

Bartonator says:

Bartonator says:
